

Eaton is released

WYCOMBE defender Ray Eaton is to be released from the club at the end of the season. But manager Mike Keen is hanging on to every other playing member of his staff.

Eaton, who returned to Wycombe at the start of the season to fill the left back vacancy caused by the departure of Bobby Davies, is to be given a free transfer.

Troubled for much of the season

by an ankle injury, Eaton has been unable to recapture the form that once made him an England international and the recent signing of George Borg means that he is no longer required.

Eaton came on a swap with Alan Phillips who went to Leatherhead. The Welsh defender did not last long at Fetcham Grove and is now apparently playing local football for Henley Y.M.C.A.

There is no news yet as to whether Wycombe Reserve side

has been accepted by the Suburban League.

As they are so far ahead with their league programme, Wycombe have to be content with a friendly at home to fellow Isthmian Leaguers Harrow Borough at Loakes Park tomorrow (Saturday). The Blues, who have already beaten Borough twice this season will be keen to make it a treble.

Then on Tuesday Blues entertain Amersham Town in their rescheduled Bowyers Charity Trophy replay. It was postponed two weeks ago because of a water-logged pitch.

In the original match the teams drew 3-3 but Wycombe will go all out to lift their first trophy of the season. All proceeds will go to Help the Aged charity.
