

Happy family. Young international Mark West outside his Stokenchurch home with father Stan, sister Mandy (18), mother Wendy and brother Sean (10).

West picked for England

MARK West, whose remarkable goalscoring feats have helped High Wycombe under 15s into the final of the English Schools' Trophy, has earned last minute selection for England Schoolboys.

He will make his international debut on England's two-match tour of

Switzerland next week. He has already been promised a place in the first game on Tuesday, and if he does well could play two days later and in a whole series of matches into June.

West, who was discarded from the original squad after a poor display in the trials, clinched his international place with a brilliant

performance in the Trophy semi-final with East London.

Five England selectors saw him score two opportunist goals and when the country's forwardline struggled in last week's 1-0 win over Wales, they went into a huddle and unanimously picked young Mark.

The youngster, who has scored 17 goals in Wycombe's Trophy run, learned of his selection at his Stoken-

church home while watching his favourite team West Ham on television.

There was a knock at the door and in walked England selector Alan Roxborough, who is also the local divisional representative of the E.S.F.A. There was a stunned silence in the household when he broke the news.
