

Cup draw means no midweek game

WALTHAMSTOW Avenue's continued marathon involvement in the F.A. Cup means that there will be no midweek match at Loakes Park.

Wycombe were due to entertain the East Londoners in a Servowarm Isthmian League match tonight (Tuesday). But Walthamstow will be involved instead in a Cup third qualifying round replay at Lowestoft, following their goalless draw on Saturday.

This is the second time the match has been delayed for this reason and Wycombe are being foiled in their attempt to get some matches under their belts, for the hopefully busy times ahead.

Manager Mike Keen, who is eager for his side to keep playing, was a slightly happier

man following the draw with Stortford.

Boosted

"We were little bit better, although we are not back to our best yet. It was a game we should have won, but against teams like Stortford you've got to get that two goal lead."

The return of Jacobs to midfield after three weeks out with breathing difficulties, boosted the team.

Although Jacobs was short of breath at the end, this was more due to lack of match fitness rather than to his recent problem.

With Anton Vircavs trying out his injured knee in the reserves and the unsettled Howard Kennedy also turning out, Keen is almost back to a full complement of players.

News of Chris Way is that

his knee is badly bruised following that late collision against Stortford. The goalkeeper also received cuts to both legs in the incident, but should not be out of action for too long.
