

Banned Anton will miss Trophy tie

WYCOMBE will be without Anton Vircavs for their FA Trophy second round tie at Bromsgrove on Saturday week.

The big central defender starts a two week suspension next Monday, following three bookings earlier in the season.

This could be a big blow for the Blues as the linking up of Vircavs and Trevor How at the heart of the defence has been the basis of their recent fine form.

Ken Wilson missed Saturday's match at Billericay due to a stiff knee. The winger believes he first suffered the injury in the FA replay against Eastwood in November.

Painful

The joint became very painful in midweek and Wilson is undergoing an X-ray and treatment this week.

Manager Mike Keen will be hoping that Wilson is fit for the Servowarm Isthmian League visit to Wokingham on Saturday — a game that Vircavs will be able to play in.

Wycombe thought that they

would be without a match this weekend, when they heard that Beaconsfield United's Berks and Bucks Senior Cup quarter-final tie with Wokingham had been postponed due to the frozen pitch.

As Beaconsfield, the home side, do not possess lights, the obvious new date for this fixture was this Saturday.

But to ease fixture congestion Beaconsfield have decided to forfeit ground advantage and play the tie at Wokingham this Thursday night.

Beaconsfield manager Terry Long explained the reasons for the switch.

"Both teams have fixture congestion after falling behind with games and as Wokingham have lights, we thought we would get the game out of the way," he said.

"I'm not particularly worried because our lads seem to excel under lights after beating Thatham and Maidenhead in earlier rounds. Hopefully that will be a good omen."

Wycombe are running a supporters coach to Wokingham on Saturday. It leaves at 1 p.m. and tickets are £2. Contact Renna Frontalski (H. Wycombe 38189) by Thursday evening.
