

Knee injury puts out Ken

WYCOMBE will be without winger Ken Wilson when they face the Servowarm Isthmian League's most improved team tomorrow (Saturday).

Wilson is suffering from a damaged ligament on the outside of a knee — an injury he first suffered more than two months ago.

But just recently the joint has been stiffening up after exercise and a week of rest, during which he undergoes intensive treatment is the required cure.

So he will miss the Blues' Premier Division visit to Wokingham Town tomorrow (Saturday) in a clash between two in-form teams.

At the end of November Wokingham plunged to the bottom of the table after having three points deducted for fielding an ineligible player.

Confident

But since then they have been unstoppable, winning eight of their last nine games and drawing the other to zoom up to ninth spot.

Their latest win came against Hendon on Tuesday night, when they won 3-0 in a game watched by Wycombe manager Mike Keen. He was impressed by their confident style of play.

In comparison, Wycombe's four wins in a row is small fry. But they seemed to have turned the corner.

Goals by Bob Dell and Henry Pacquette gave the champions a 2-1 success at Billericay on Saturday, when Paul West proved an able deputy for Wilson.

The manager is likely to name the team, and hope that Wilson and another casualty Steve Long will be able to play in their friendly at home to the R.A.F. for the Battle of Britain Cup, on Tuesday night.

This will be Wycombe's last match before the F.A. Trophy second round trip to Bromsgrove on Saturday week.

The Southern League side will be 'watched' during their Midland Division match at home to Dudley tomorrow.
