

Tate aims to stay

THE arrival of prolific scorer Colin Tate from Oxford City, must cast doubt on Terry Glynn's future at Loakes Park.

Tate, 24, has scored more than 30 goals in competitive play this season, and is certainly aiming to be at Wycombe for some time.

Glynn's future has been discussed ever since fellow Londoner George Borg moved to Dartford in December.

Now Tate has signed, Wycombe could decide to part with Glynn. Much also depends on how Ken Wilson and Steve Long recover from their serious injuries.

Both Tate, who came for nothing, and Glynn will be in

the Blues side that visits relegation strugglers Tooting and Mitcham in the Servo-warm Isthmian League tomorrow (Saturday).

Scramble

With Bromley already doomed, there is a mad scramble by half-a-dozen teams to avoid the drop. Tooting, encouraged by their victory at Bognor in midweek, will be tricky opposition.

Mike Keen is well aware of his side's short-comings in midfield especially as Steve Perrin is likely to be out for another week, following his nasty ankle gash.

Several youngsters are challenging for the spots either

side of Bob Dell and the side will be hard pressed to win and start climbing the table.
