

Salvage a bit of pride lads

WE are celebrating our Centenary this season and what a way to start!

I am ashamed to say I am a Wycombe Wanderers supporter as we appear to be heading down the road from which there is no turning back.

The manager keeps telling us to be patient, results will come.

When Wycombe appointed the new manager I would have thought that Alan Davies should have been given a chance.

At least all the old players who were at Loakes Park would still be together.

I read in MIDWEEK that the manager is still going to sign more new players.

Situation

Last Saturday I heard for the first time — and I don't expect the last — "Come back Mike Keen."

I wonder what Mike Keen, Alan Davies and Tim Anning

Sports Mail

must think of the current situation after they had such a successful time in office.

I think Mr Bence had better go back to Wokingham where he can be in charge of 'The Whippets.'

I read in MIDWEEK also that he gave the players a strong tongue lashing after another dismal defeat at Bognor.

Will that really help? I don't think that attitude will help Wycombe Wanderers. It appears to be a joke a week now what with getting to Hayes, then having to use their kit (Wycombe forgot theirs) and then a late kick off on Saturday.

Come on, shake yourself up Wycombe and salvage a bit of pride. — T. M. Surridge, Knotty Green, Beaconsfield.
