

Give Bence money to buy

Postbag

THE recent letters sent to your paper have shown that fans are really most concerned at the present state of affairs at Loakes Park — despite the FA Cup run.

Knocking the team and the manager seems to be the order of the day. But I believe it goes deeper than that.

Mr Bence has to shoulder some of the responsibility for our bad form in the Gola League.

But even he can only do so much with what he has available.

Take away Anton Vircavs, Dave Burgess and Gary Lester and quite honestly we would struggle in the old Athenian League.

Money

The manager must be allowed to manage and one way out of this situation for him is to BUY and BUY urgently.

The club, and by that I mean the 'hierarchy,' insist there is no money available.

Rubbish. We must be one of the richest non-league clubs in the country.

I know roughly how much is paid out a week in wages and it is little wonder top players are not attracted to Wycombe.

They can earn more playing for an average Isthmian League club.

The lottery, run by a still patriotic Paul Birdseye, seems to be going well.

So, with the money saved on wages, we must surely be financially very secure.

Come on, you Wycombe 'big-wigs' before we end up being relegated in our first Gola League season.

Release some money so that Mr Bence can sign two or more top players.

And, when he has them, pay them realistic wages!

**Mr Pete Sheridan,
Green Hill,
High Wycombe**
