

PROGRAMME REVIEW

WYCOMBE WANDERERS: 28 pages (14 pages advertisements) priced at 30p. Blue and yellow cover. The use of the club colours (dark and light blue) are used as background on each inside page. Apart from Kettering Town this is possibly the best Gola League programme I have come across this season. Page 3 is a rundown on the club officials whilst the following page is devoted to the team managers comments. Page 7 another view from inside the club this time written by the secretary. Our visitors is next and is a profile of the visiting club, this article judging by the two pages taken up seems to be well researched and gives an up to date results service of the opposing team. Page 12 is the pen portraits of the away side. Centre pages feature the team line-ups and page 17 is a 'Back in time' article and recalls Boro's first ever visit to Wycombe in August 1979, a pre-season friendly when Nuneaton won 4-2. Page 18, programme review, a similar article to what you are now reading. Page 21 is a review of the Gola League, page 22 features the referee's profile and travel news. Page 25 is the League Table with the evenings other fixtures whilst the following page is the results and fixture list. I shall be surprised if this programme does not gain some award at the end of the season.
