

INJURY-PLAGUED Wycombe may have to travel to Leek in Staffordshire for their FA Trophy replay without their regular back four.

Steve Toll, Anthony Riley, and Dave Burgess are all struggling for fitness and captain Anton Vircavs looks almost certain to be ruled out.

The Blues managed to fix up a friendly with the RAF at Bisham Abbey last Thursday which has probably cost them Vircavs, who picked up a bad groin strain.

Even new signing Neil Price suffered a knock in the friendly, but he should play on Saturday.

Adding to the list of casualties, Anthony Riley has not yet recovered from a knee injury. Toll has had a recurrence of his toe problem and Dave Burgess is still battling with a bruised leg.

Tough

"I was hoping to fix up another friendly at Bisham this week, but I just can't risk getting any more players injured," said Blues boss Alan Gane.

"It looks like we'll be struggling for a back four.

"The Leek game is going to be

Wycombe hit by injury crisis

tough enough as it is, so this is not the ideal time to get these injuries.

"Anton has even got a dose of the flu, which is all he needs now."

Wycombe's local derby Berks and Bucks Cup semi-final with neighbours Flackwell Heath has now been pencilled in for Wednesday, but both Steve Toll and Neil Price are ineligible.

Wycombe's scheduled fixture for Saturday at Telford has been put on the shelf to make way for the Leek cup tie.
