

➡ **WYCOMBE Wanderers** have received a grant of £45,000 from the pools funded organisation **The Football Trust**. The money will go towards the **Football in the Community** programme launched at the weekend. Wycombe become the first in the Conference to operate a Trust-funded community scheme.

The grant will help meet the cost of new changing accommodation, a fitness gymnasium, treatment room and the construction of a playing surface at Wycombe's proposed new £3.45 million stadium.

➡ **Kettering Town** have sold forward **Cohen Griffith** to **Cardiff City** for a fee in the region of £60,000. The financial arrangement, which could increase subject to appearances, is the fifth largest paid for a Conference player.

The 25-year-old right winger joined Kettering last season from **Leicester United** for £3,000. During his spell at **Rockingham Road**, Griffith scored 11 goals in 36 appearances. He made an impressive Third Division debut scoring in Cardiff's 3-2 win at **Huddersfield** on Saturday.

➡ **Darlington** are 4-7 favourites to win an immediate return to the **Football League** according to odds issued by **William Hill**. **Brian Little's** side commands the shortest odds ever offered for a team at this stage of a Conference campaign.
