

# **Cheers Charles for telling it like it is**

I HAVE never felt so compelled to write a letter before, but having just read the item 'Mann on Friday' in the Friday February 23, Bucks Free Press, I have to say well done Charles Mann "So say all of us".

Every point Mr Mann makes is so obvious to most people that I just wonder who is mad, is most of the population or the few with the power to make decisions?

In particular, Wycombe District Council Planning, I spent my childhood in Sands and every year the factories encroached on the valley where the football ground is being built. How can anyone of sound mind decide that a community project such as a training facility is more unsightly than a bunch of factories? But of course I forgot factories make money.

I think Wycombe District Council deserves its vandals, it doesn't want to do anything for the youth of the town only complain.

The town's sports centre is on a dual carriageway leading to the largest motorway roundabout in the area so that it is most dangerous for unattended children to visit.

We also have a good hospital that you need to be fit to visit as it is not on a direct bus route and the parking is non-existent.

Well done Wycombe District Council Planning!
