

➡ **RUNCORN** registered the largest victory in the history of the Conference when they beat bottom side Enfield 9-0, at Canal Street. The scoreline exceeds the previous record set in October 1986 when Sutton United beat Kettering Town 8-0.

The victory, Runcorn's tenth successive home win, came courtesy of goals from Mick Doherty (5), Mark Carter (2), Tommy Miller and Derek Highdale, with no fewer than four scored in the final seven minutes. The defeat extends Enfield's run of matches without a win to 11 - the longest sequence in the Conference this season.

➡ **LEADERS** Barnet have set a crowd limit of 5,880 for their top of the table clash with second placed Darlington on Saturday, March 31. The Conference match has been designated all-ticket.

Tickets were placed on sale after Saturday's 1-0 victory over Northwich Victoria, with 2,000 sold in only one hour.

➡ **RUNCORN** midfielder Ian Woan, who is poised to become the most expensive Conference player to join the Football League this season, last week visited AFC Bournemouth and Leyton Orient to discuss a possible move. The 22-year-old, who has attracted bids in the region of £70,000, is considering the terms offered.

Woan continues to be the subject of interest, with Everton, Liverpool, Sheffield Wednesday and Spurs amongst the visitors to Canal Street on Saturday. Woan gave an impressive display, making four of Runcorn's nine goals.

➡ **CHELTENHAM** Town, whose ground was badly damaged by recent gale force winds, are investigating the possibilities of building a new stand opposite their main 1,200-seater grandstand.

The planned structure will incorporate social and leisure facilities, including an indoor bowls arena - the first of its kind in Cheltenham. The decision to explore the feasibility of upgrading Whaddon Road in such a way follows Lord Justice Taylor's recommendations relating to all-seater stadia.
