

Wycombe goes football crazy

ALMOST 20,000 tickets had been sold for the FA Trophy final by yesterday as High Wycombe continues to go football crazy.

Everyone wants to be at Wembley to see Wycombe Wanderers next week and more and more blocks are having to be opened at the famous twin towers to accommodate Wycombe's incredible support.

All the £12 seats for the game have been snapped up, but there are still plenty of £6 and £10 tickets on sale.

Wycombe Wanderers commercial manager, Allan Robson, said: "We're looking at between 20-25,000 of our own supporters being at Wembley - 25,000 would be nice. I spoke to Kidderminster on Wednesday and they've sold 7-8,000, so we've doubled their sales."

The team is hoping their fans will be able to beat the current FA Trophy attendance record of 32,000. Allan said: "No-one has ever taken as big a support as us before."

Blues manager, Martin O'Neill, said this week: "The reaction in the town has been absolutely phenomenal. It has really caught up with the players."

Five special trains will run to Wembley on the day and the club is even having problems booking supporters coaches. "The coach companies are already booked up," said Allan.
