

Nuttell urged to go for broke

**Report by
COLIN HAZELDEN**

AFTER Mickey Nuttell's winning header yesterday Wycombe boss Martin O'Neill will be urging him to get more goals.

"It was a blinding header," said O'Neill afterwards. "I know Mickey thinks a large part of a striker's job is to lay things on for others but I'd like to see him in there more looking for goals."

Nuttell's goal put Wycombe ahead in a match which only really came to life after the interval.

That header had almost won the harsh Blues fans over to Nuttell but he then spoiled things by missing two sitters later on. O'Neill was sympathetic but frank.

"He has a hard job trying to replace Keith Scott. I know he's not popular because he can be clumsy and awkward but we've had a lot out of him."

Pleasure

The win gave O'Neill obvious pleasure. "I would have been delighted with seven points out of nine," he said. "You won't find many tougher teams than Yeovil and Witton."

"We've shown great resilience and we haven't panicked when we haven't scored early on."

Even on Monday the Wycombe boss was still determined to clear Simon Stapleton after the player's sending off against Witton on Saturday.

"We will be looking at an appeal," he told Midweek, adding that he didn't know if there was video evidence or if the FA would accept it if there was.

Meanwhile, Blues, top of the Conference after yesterday's win, face Altrincham this Saturday at Adams Park.

After three straight wins Wanderers will be confident of earning further league points in their bid to get promotion this season.
