

Why not support the supporters?

ONCE more we see a sledgehammer out to crack a peanut. We have just been informed by the Sands Residents' Association that Bucks County Council intends to extend parking restrictions in this area.

I am particularly concerned with Pinewood Road as it is where I live. The proposal is to prevent parking on one side of the road completely, this does make sense. However, they also intend to restrict parking on the other side during evenings 4pm until 10pm and Saturdays noon until 6pm, the very times when most residents would want to park their cars in the road.

I would point out that I have space to park up to eight cars in my property but this would still restrict my use of what is normally a very quiet road.

This is obviously a ploy to restrict the use of the road by the local football supporters and very little thought given to the requirements of the residents.

Why don't the authorities accept that the football club is here to stay and that they are successful and look likely to continue. They have crowds of up to 7,000 and could possibly rise to 10,000. Are they going to continually paint yellow lines on the roads around the ground in ever-increasing circles until they reach the town centre?

Why don't they use the situation to their advantage and possibly make money by providing temporary car parks on match days. Use some of the local farmers' fields, what about Booker Air Park as a car park? They have been against the club being placed here right from the start and seem to be continuing in the same vein.

Can't we have some positive thinking from them for a change. This may be asking too much! Accept that the club is here and provide help for it and its supporters and hopefully the local residents as well. I personally can live with the minor inconvenience of match days. I don't need any more parking restrictions!

Who gets what from the tickets?

I THINK you would be doing us Wanderers supporters going to Wembley on Saturday a favour if you printed a breakdown by percentage of who gets what from the tickets.

As you know, £13-£32 ain't cheap! And we'd like to see where our money is going.

Police praise our well-behaved fans

AS the Football Liaison Officer and regular Police Ground Commander at Adams Park, I would like to take this opportunity to praise the Wanderers' supporters for their conduct throughout the season both at home and away fixtures.

On a number of occasions you have been subjected to abuse and provocation and without exception you have conducted yourselves in a manner which reflects credit on both yourselves and Wycombe Wanderers Football Club.

Your behaviour has regularly received praise at away matches and you have gained the reputation of being one of the fairest group of supporters in the Football League.

Your conduct has been an example to other Football League clubs and long may it continue.

Good luck in 1994/95.
Inspector Angela Wilson
Thames Valley Police
