

Just who is letting who down, now?

USING the match day programme, the Bucks Free Press and the recent AGM, a certain director of Wycombe Wanderers Football Club has tried to blame the fans for the club's current financial situation.

He's done this by either telling us we don't buy enough club merchandise, or by not choosing to attend the games at all.

He has said that he would like to walk through the town and see young people wearing the club's colours and not the colours of Premiership teams.

With the current poor form at Wycombe – Basingstoke being the latest example – it looks like it will be a long way off for that to happen.

In my opinion, he needs to be able to grasp the fact that young people want success, their heroes are successful, and they want to emulate them.

There are not a lot of young people who would want to take the chance of being laughed at because they support a team who are playing badly and with no passion.

I suspect even fewer colours will be worn following our disastrous performance against Basingstoke.

Bad enough that we throw away a lead at home, but then to twice go ahead in the replay and surrender that lead is unacceptable.

Did we not learn any lessons from the home game? Obviously not.

I'll wager a bet that Northampton deal more professionally with Basingstoke than Wycombe Wanderers were capable of doing.
