

BLUES NEED YOU

Wycombe issue plea to the fans

FOOTBALL

BLUES boss Lawrie Sanchez watched his team climb off the bottom of Division Two with a 3-0 thrashing of Oldham and then pleaded with the fans to join the club's survival bid.

Only 4,000 fans saw the Blues' best performance of the season and Sanchez says it's time the fans played their part.

He said: "That was our best performance since I've been here. It's disappointing there were only 4,000 people here to see it because of the England game."

Sanchez reckons his rejuvenated Blues need five wins from their remaining nine matches to complete their Houdini bid, starting with Saturday's trip to second from bottom Macclesfield. And he wants the fans behind them.

Sanchez said: "My message to the fans is come and help us. Come and see us on our travels and if you can't do that see us at home. I want six or seven thousand people down here for our last three games which we must win. We've got to win five of our last nine games and three of those are at home."

Two weeks ago, Blues looked doomed but two successive wins have lifted them to third from bottom and they are now just three points shy of the safety line.
