

LETTER

Midweek has lost the plot

I WOULD like to register my disappointment and indeed disgust at the imbalance in your Sports pages this week.

I refer to the back page colour picture and another colour picture inside with a 3/4 page report of the London Wasps friendly rugby game.

I contend this has got little or nothing to do with High Wycombe other than the game was played in the town, and therefore is not local news.

Whereas Wycombe Wanderers is the local football team and I would expect them to get better coverage in comparison, just a couple of black and white pictures and no more space for the report of the first football league game of the season, than the rugby got?

Surely that's a badly judged decision?

I believe, the Midweek - like your sister paper - the BFP, has got it badly wrong, and I would expect you to quickly change the balance, with little or better still no coverage of the London team, but more of the Wycombe team.
