

Currie: Posh defeat ruined my birthday

Present time: Darren Currie receives his trophy and £1,000 worth of Umbro kit for his match-winning performance in the FA Cup last month

WANDERERS ace Darren Currie goes into tonight's cup clash against Mansfield Town determined there will be no repeat of the last-minute madness which ruined his 29th birthday.

Dazza's big day, which began with him receiving a top award and then continued with him scoring the equaliser against Peterborough, was wrecked when Posh snatched an injury-time matchwinner after Wycombe gave the ball away.

And it was the second home match-running that Blues had conceded an injury-time sickener.

Currie, who had earlier picked up the FA Cup Player of the round award for his two-goal performance against Swindon last month, was inconsolable.

He said: "I'm gutted. This was supposed to be the perfect birthday. Getting the award, beating Peterborough and then going out for a meal. I had it all planned but it has been spoiled by the poxy result.

"We looked like we lacked confidence all afternoon and that's one thing that has been good even when results haven't gone our way.

"We've made it difficult for ourselves but there are loads of points to play for but we've got to stop conceding late goals.

"We'll never give up, but we've got to turn it round and there's no better time to start than against Mansfield.

"Our aim has got to be to finish fifth from bottom, one point, one goal, one anything better than the bottom four."
