

Easter: This could be the start of a goal glut

JERMAINE Easter bagged his first goal for Wycombe on Saturday and then said: This will be the first of many.

The striker has endured a lean spell in front of goal since his £80,000 switch from Stockport County but Easter's confident his goal drought is over after his consolation effort in the 3-1 home loss against Bristol.

He said: "That was good for me. It has relieved some of the pressure.

"I know we lost the game but it was good for me. This could now be the first of many."

Manager John Gorman added: "That was a big boost for Jermaine.

You can see in training he's much more relaxed."

Easter is relieved after the pressure was building up and not finding the net in nine games.

He said: "I've put the pressure on myself. I expect the pressure because it comes with the job.

"It's a team game but I feel a lot more relaxed now that I've scored.

"All the lads have been quality since I walked through the door – it's just been myself who's been putting on the pressure."

And Easter admitted his confidence had been shaken at his inability to find the back of the net.

He said: "Everybody is a confidence player but I'm more so."

Easter is now looking at tomorrow's game at Macclesfield to reignite Wycombe stuttering campaign.

He said: "At this stage of the season, every game is a big game. You've got to believe we can win. If you don't believe, why are you here?"

"Every team goes through a bad spell throughout the season, even the likes of Arsenal and Chelsea.

"Unfortunately, it's come for us but Saturday's a good time to rediscover our form and hopefully we can do that in our next game.

"Everyone wants to get promoted at the end of the day but we want to go up automatically."

First of many? Jermaine Easter
