

Cherry Red Records launch search for a Wycombe song

Have you got what it takes?

Wanderers are proud to support the launch of Cherry Red Records' new competition - 'Singin' For Wycombe' - which aims to hear the musical talent that Chairboys fans have to offer!

The club's new front of home shirt sponsor are asking fans and followers of the club to record a song for WWFC, upload it to YouTube and/or Soundcloud and share it with them.

The best efforts will be offered the chance to release their track on Cherry Red Records as part of a digital compilation. All you need to do is email a YouTube and/or Soundcloud link to Cherry Red Records at songs@cherryred.co.uk and share your track with WWFC and Cherry Red on social media.

The football club and record label will listen and select their favourites in December 2018. Those that make the final cut will be compiled in to a digital compilation which will be made available across iTunes/Apple Music, Spotify, Amazon, Google Play, YouTube Music, Deezer and all the other legal digital platforms that Cherry Red distribute music to in early 2019.

You're invited to email links to your songs to songs@cherryred.co.uk by Friday 30th November 2018 - including the name of the artist/band/performer and the title of the track itself.

Please also feel welcome to email your lyrics to Cherry Red Records along with your own social media links so they can tag you in to any social media posts they create that highlight your songs.

Good luck!
