

MatchDayInfo programme app returns for 2019/20 season

Download Parklife on the day of the game, wherever you are in the world.

Chairboys fans across the world will once again be able to download the club's matchday programme on the day of the game, via the MatchDayInfo iOS and Android app.

The club have extended its partnership with **MatchDayInfo** to enable supporters who can't get to the game to download a digital copy of the matchday programme.

To download the app and your chosen edition of the programme, follow these steps:

- 1) iPhone/iPad and Android users need to go to their app store
- 2) Search 'MatchDayInfo' or 'Match Day Info'
- 3) Once the App has been downloaded, the fan has the opportunity to make an account and sign up via Email, Facebook or Twitter. They can also wish to be push notified when their favourite team(s) uploads new content
- 4) Once logged in, the user will land on the Home Page, which will show the featured event of that day (which will be the Wycombe Wanderers programme) from 1.30pm onwards
- 5) Clicking on the featured picture will take you to the event programme - where fans have the opportunity to purchase the programme quickly and simply. The programme will take a few seconds to download, depending on the speed of the internet connection
- 6) The programme will then appear in front of the user. If they wish to exit, they can find their programme in the 'Downloads' section, where they can archive their favourite programmes and read when ever they wish.
- 7) To follow the 'Wycombe Wanderers' Page, click 'Explore', then 'Team Index' - then simply select 'follow' on the profile.

Any fans that encounter problems, or wish to submit feedback, can email media@wwfc.com.
