

Atech come on board as new IT provider

High Wycombe-based company begin new partnership with football club.

Wycombe Wanderers are delighted to welcome High Wycombe-based IT specialists Atech Support on board as a new partner of the football club.

Atech become the Chairboys' new IT provider, signing an initial season-long deal which will see the Easton Street company sponsor selected matches at Adams Park, enjoy VIP hospitality, take up pitchside signage and benefit from introductions to members of the club's Business @ Adams Park network.

Mark Palmer, management consultant at Wycombe Wanderers, said: "It's fantastic to bring a brand-new partner into the club and we've been really impressed by the level of professionalism and quality that Atech will provide, helping us to bring much-needed improvements to the IT infrastructure around the club.

"We have outlined a series of developments over time and are starting by moving to cloud-based systems which will help us become more efficient in our day-to-day operations. We're looking forward to working more closely with Atech over the coming months and years and thank them for coming on board at a time when the club is moving into a new and exciting era."

Adam Hatton, business development manager at Atech, said: "We're thrilled to be partnering with our local football club and it's an exciting project for us to work alongside the new management structure to bring the club's IT's systems in line with modern technology.

"Wycombe Wanderers are clearly a club heading in the right direction and we look forward to getting started as their new official IT provider."
