

Jasper Pattenden has extended his contract at Adams Park after progressing through the club's development programme to become an important part of the Chairboys' first-team squad.

The right-sided player arrived from Worthing in the summer of 2022 and made seven appearances in his first season, as well as spending time on loan with Dorking Wanderers.

He impressed during a sustained stint in Wycombe's starting XI earlier this campaign and has now committed his future to the club, signing a new deal ahead of kick-off at Tuesday night's League 1 encounter against Cheltenham Town.

Manager Matt Bloomfield said: "Jasper had to be really patient for his chance, but he absolutely grabbed it when it came before he picked up an unfortunate injury. He's got great energy about him, and I love the way he conducts himself. He was the first to congratulate the boys after the win on Tuesday even though he hadn't been involved.

"We've got high hopes for him and we're delighted he's committed himself here.

"We're really proud of the development programme. Pete Couhig put a lot of hard work into it to get it up and running and it gives guys like Jasper the chance to step up from non-league. It's been a real success story for this club."
