

Wanderers have swooped for Milton Keynes Dons left-back Daniel Harvie, who moves to Adams Park after making 166 appearances in four years in the north of the county.

Harvie, 25, started his career in his native Scotland with Aberdeen, Dumbarton and Ayr United before moving to MK in 2020, starring in the side that achieved 89 points in League 1 in 2021/22.

He scored at Adams Park in a 2-2 draw in April 2023 and went on to play a key role in another promotion charge, featuring 43 times in total last season.

Matt Bloomfield said: "Dan's an excellent addition to our squad and we're thrilled that he's decided to make the move to Wycombe and be part of what we're building here.

"He was one of the best left-backs and wing-backs in League 1 for a couple of years and has also shown he can play wide of a back three.

"The data tells us that playing as a full-back will complement his strengths as well, so having someone who can play in a few positions will give us another dimension on the left side.

"The squad is taking shape really nicely ahead of the season, which is testament to the hard work of everybody behind the scenes, and we're excited to combine these new faces with the quality we've already got in the squad and make sure we're as strong as we can possibly be when the season kicks off next month."
