

Wycombe Wanderers are thrilled to relaunch the popular [WanderersTV](#) platform ahead of the 2024/25 campaign, offering a better service than ever before for its subscribers, with annual passes now available.

The club have teamed up once again with leading sports technology company Urban Zoo, who already provide the club's website and app, to revamp the online TV service via their Streamline product and subscribers will benefit from:

- Four-camera coverage of all league games
- Quicker access to Full Match Replays (from midnight after the game)
- Casting from mobile devices to TV screens and other compatible devices
- Additional payment types including Google Pay and Apple Pay
- Easier search functions, boxsets and extensive archive
- Auto-generated subtitles for accessibility

The new Sky Sports deal means there'll no longer be the opportunity to purchase match passes to watch selected games within the UK & Ireland*, but all league and non-televised Bristol Street Motors Trophy games will be available to subscribers outside of the UK & Ireland* (with either a match pass, monthly subscription or annual pass).

Existing monthly subscribers don't need to do anything to continue to be able to access the new platform; just log in with the same email address and password as before. However, please take note of a small price increase which will come into effect on your next monthly payment date.

New subscribers should just head to [wwfc.com/videos/subscriptions](https://www.wycombe-wanderers.com/videos/subscriptions), choose either your monthly or annual subscription, and follow the steps to make payment.

Prices of subscriptions for 2024/25 are as follows:

- UK monthly pass: £5
- UK annual pass: £50
- International monthly pass: £28
- International annual pass: £190

*Definition of UK and Ireland also includes Jersey, Guernsey and Isle of Man
