

Wycombe Wanderers – together with its Foundation – are pleased to announce the availability of sensory packs for supporters with sensory needs at all future games at Adams Park.

The packs – made possible thanks to a donation from Brittons Solicitors – include a lanyard, fidget and sensory toys, ear defenders and a guide to Adams Park, all provided in a drawstring bag.

To reserve a pack ahead of a fixture, please complete [this online form](#) and collect it from reception ahead of the game. Packs need to be returned to reception after full-time.

Clare Bassett, the Community Engagement Officer for Wycombe Wanderers Football Club and Wycombe Wanderers Foundation, said: “Coming along to a football match at Adams Park is an exciting experience and at times the busy atmosphere can become a little unsettling for people, especially youngsters, who have sensory needs, so we’re delighted to be able to provide these packs on matchdays.

“Research has shown that these items have a calming influence on people who might be feeling anxious in certain situations and we hope that these sensory packs, along with the provision of a quiet room within the stadium and the friendly and welcoming nature of the matchday staff and stewards, will help to reassure people who may be feeling uncertain about coming along to matches.

“We’d like to thank Brittons Solicitors for making a very generous donation to fund these packs and look forward to receiving feedback from those fans who are keen to make use of them.”

Richard O'Hagan at Brittons Solicitors: "Brittons Solicitors Limited are delighted to sponsor these sensory packs. We have a long history of working with members of the neurodiverse community and many of us have family members within that community.

"We applaud and support this initiative by Wycombe Wanderers and look forward to working with the club for many years to come."
