

Wycombe Wanderers require a hard-working, open-minded, smart & humble individual within the role of Professional Development Phase Analyst.

This person must be passionate about the development of young players.

This exciting new position in our Academy will be responsible for:

- Providing high-level video content for Individuals, Team and Staff pre & post-event within the phase (training & fixtures).
- Supporting the creation, delivery and review of outstanding Individual Development Plans within the Professional Development Phase.
- Creating and developing high-level, visual learning resources for players and staff within the Academy.
- Innovating within the analysis department to help us become a 'world-leading' football academy.
- Working within the Inter-Disciplinary Team to maximise person and player development within the PDP.
- Liaising with other club staff inc. the analysis department to share best practice and methodology.

Who are we?

Wycombe Wanderers FC is a League One Football Club with ambition! We're embarking on an exciting new journey within our youth development programme. Here's what we are aiming to achieve in the coming years...

*Our **Mission** is to build a world-leading football Academy that develops exceptional players and people for our 1st Team, the UK and global game.*

Who we're looking for?

To help us realise our ambition we're not just looking for people to fill roles; we're searching for those who are passionate about helping us build something special and create meaningful change.

By joining us now, you'll play a key role in developing a culture that values innovation, collaboration, and continuous improvement. Your expertise and ideas will help us establish an academy where every detail contributes to the development of our players.

Do you have what it takes?

The successful candidate will need to hold the following qualifications:

- **Desirable: Degree level experience**
- **Desirable: coaching qualifications (UEFA B / UEFA A Licence)**

You will have a high-level of computer proficiency, including experience and competency in the use of various programmes such as Hudl, Hudl SportsCode and Hudl Studio. Moreover, you should be comfortable and interested in data and statistics that support team/player development.

You should have experience within an Academy or similar environment, with an excellent technical and tactical understanding of the 11v11 game. You should be a student of the game who is interested in the constant, evolving modern trends at the elite level. You should be passionate about supporting the development of young players and people. You will need to be a hard-working, diligent and efficient individual with the capacity to work independently and within an Inter-Disciplinary team.
