

Wycombe Wanderers have completed their seventh new signing of the summer transfer window, with goalkeeper Mikki van Sas switching to Adams Park from Eredivisie side Feyenoord.

The 21-year-old developed through the academy at FC Utrecht and was heavily coveted by clubs across Europe in his teens, opting to sign for Manchester City in 2020 and keeping seven clean sheets in 15 games as they romped to a third successive PL2 title in 2022/23.

He earned international caps for Netherlands' under-15 to under-19 sides and returned to his homeland in 2023 with Feyenoord, before spending last season on loan with Vitesse Arnhem in the second tier, making 13 appearances.

Mikki arrived in London on Friday before putting pen to paper on his deal with the Chairboys at Adams Park that evening after completing his medical.

Head Coach Mike Dodds said: “Mikki is another really exciting addition to the squad who adds extra strength and competition in our goalkeeping department, and his attributes are a great match for the way that we want to play.

“He’s had a fantastic upbringing in football in the Netherlands, and his three years in England with Man City will also stand him in good stead to help him settle here quickly.”

Tom Stockwell, Director of Football Strategy, added: “We’re delighted to secure another player from a top European club; Mikki has huge potential and he’s a big and imposing physical presence in the goal, with excellent shot-stopping ability. He’s also a very talented footballer with fantastic distribution which will allow us to build from the back.

“With settled status, Mikki doesn’t take an ESC spot for us which is important for the strategy and required us to act smartly with regards to our recruitment. I’m sure the fans will welcome and support him.”

Finalisation of Mikki’s deal is subject to EFL and FA approval and international clearance.
