

To the fans of Wycombe Wanderers,

On behalf of the ownership, staff and players, we wanted to thank you for your support throughout the 2025/26 season.

We are disappointed that we did not reach our first-team target for the season and we know that you as supporters expect more, and so do we. We know where we need to improve and as we look forward to the 2026/27 season, work is already well underway to build a squad that will be competitive.

There were still positives, including scoring the third highest number of goals in the club's history at this level and reaching the fourth round of the Carabao Cup for only the second time, however we are clear that these good moments do not replace reaching our ultimate objective. Our focus is now on making sure we are better in every area of the club to make us stronger and more consistent throughout next season.

Returning to Marlow Road has been a key step in raising the standards around the first team, and we have been able to develop areas such as our physical performance, tactical analysis and data systems, which are important foundations for us to build on.

We want to thank the players for their efforts, some of whom will leave us this summer, and they do so with our best wishes. We hope the club has played a positive part in their careers moving forward.

"We want this place to become a really entertaining and enjoyable place for fans to come to"

We are really proud of the academy's progress, which is not only measured by on-field results, but by the development of young players on and off it. The academy has provided players to first-team training and matchday squads on a consistent basis, and to have an academy player score the winner at the last game of the season is a reminder that our future is bright. It was also great to win the Berks and Bucks Senior Cup with mostly an academy side; something the club has not done since 2012.

Growing attendances at Adams Park remains a major priority. We were delighted with the huge uptake of kids' season tickets last summer, and are pleased to retain the same great price of £25. Initiatives such as the Community Day, t-shirt design competition, Her Game Too matchday, open training session and other matches and events helped to showcase us to new audiences. We want this place to become a really entertaining and enjoyable place for fans to come to.

Congratulations also to the women's team on winning their league at the end of a fantastic season. Their success is one of many across the Foundation, who continue to deliver excellence on behalf of the club in local sports participation, education, health and wellbeing and social inclusion.

We are also always grateful to the many volunteers who contribute throughout the week and on matchdays across a wide range of roles. We know it means a lot for people to be able to play a part and contribute to the club they support, and in turn help others enjoy their day out. Their contribution matters enormously.

Thank you as well to our staff across Marlow Road, Harlington and Adams Park. Every day they help us build a stronger football club, one that strives for elite on-field performance, long-term financial sustainability and bringing more supporters into the club.

Finally, thank you to every fan who has supported us across the 2025/26 season, whether it's been every game up and down the country or just one game. Your support matters, and we do not take it for granted.

Enjoy the summer and we look forward to seeing you back in 2026/27.
