

Wycombe Wanderers are seeking an engaged and forward-looking Performance Physiotherapist with strong multi-disciplinary team experience and a proactive, innovative mindset.

Reporting to the Head of Medical, this role will contribute to the evolution of our First Team support environment — delivering high-quality physiotherapy services, and working with coaches and performance support staff to individualise and integrate with the wider programme.

You will lead on pathology management of available players, with a particular focus on complex presentations including tendinopathies and chronic load-related conditions.

You should demonstrate integrated applied knowledge across the performance development process, providing data-informed analysis and insight, and working closely with coaches and the wider multidisciplinary team to optimise player availability.

To apply, send a CV and covering letter expressing your interest and suitability to jobs@wwfc.com. Please title your email "First Team Performance Physiotherapist".

Applications will close on 19th June. We will interview suitable candidates prior to that time and reserve the right to close the application process early should we find the right person.
