

Malik's our man

Wycombe Wanderers have secured the season-long loan signing of exciting attacking talent Malik Mothersille from Stockport County.

The 22-year-old was the Hatters' club record transfer last summer, arriving from Peterborough United, where he'd scored 22 goals in two seasons.

Prior to that, he'd started out in Leyton Orient's academy before joining Chelsea at the age of 16, and earned his first full international cap for Jamaica in 2025.

Capable of playing anywhere along the front line, Malik won't be eligible to face his parent club in Saturday's league fixture between the two sides, so could make his Wanderers debut against Sheffield Wednesday at Adams Park on Tuesday.

"He is a fantastic athlete, and will give us a pace option through the middle as well as adding to our speed and ball carrying from the side."

Tom Stockwell Director of Football Strategy and Data Intelligence

Wanderers' Director of Football Strategy and Data Intelligence Tom Stockwell commented: "We are happy to welcome Malik to Wycombe Wanderers. Malik is an exciting and versatile attacking player who can operate through the middle or from the wide positions.

"He already has nearly 100 League One appearances with 30 goal contributions (17 goals and 13 assists) in that time. He is a fantastic athlete, and will give us a pace option through the middle as well as adding to our speed and ball carrying from the side.

"We will have to wait to see Malik in action as he will not be available to face his parent club on Saturday, but we are sure he will be worth the wait and will get a warm reception on Tuesday night at Adams Park."
